Hey rock-starlet!

I'm so happy you've decided to pick up this catalog and see what's inside! By just simply grabbing it and reading these words, you are taking your first steps into the fabulous world of girl guitars. And what an exciting world it is! With so many beautiful, sparkly, cool guitars to choose from, we hope you'll find the guitar that speaks to YOU, and makes YOU want to start rocking out like all your favorite girl artists, just like the ones you see on TV and on tour! So welcome to Daisy Rock land, where the daisies just keep blooming and there is music in the air.

This year marks a fresh, new age here at Daisy Rock. We are launching an entire new line just for you! It's called the Debutante® series, and it features the hottest new look and sound, it's built to last, and it's at a price that parents can afford. Whether you like a stylish electric guitar in a cool shape, like a Butterfly, a Daisy, a Heart, or a Star, or you want a cool sparkly color, or if the classic acoustic guitar is more your style, we've designed something with only you in mind. Our goal is to offer the guitar that speaks to your unique personality. You can be silly or stylish, sassy or sweet; with your Daisy Rock guitar in your hands, we know you'll look great while creating music that comes from your heart.

When I started Daisy Rock Girl Guitars eight years ago, it was from a personal desire to make sure that my two daughters grew up with opportunities I never had – to become teens and tweens in a world where not only could they access guitars that were the right size, shape, and weight for them, but also where they knew playing the guitar would be just plain cool! Cool and fun and something every girl wants to do!!! Since then, the company has grown tremendously, and my dream of empowering girls is taking shape right before my eyes! So bring on the music, and bring out your inner rockstar, because playing the guitar isn't just a "boys club" anymore, that's for sure. Come on girls, flip through these pages, pick out your favorite guitar, put it on your wish list, and let's start showing the world together that girls are here to ROCK!
